

VENDOR VERSION 8/23/24

The Perkins Innovation and Modernization Grant

The purpose of the Perkins Innovation and Modernization grant program is to identify, support, and rigorously evaluate evidence-based and innovative strategies and activities to improve and modernize career and technical education (CTE) and ensure workforce skills taught in CTE programs funded under the Carl D. Perkins Career and Technical Education Act of 2006 (Perkins V), align with labor market needs.

For the 2023 Perkins Innovation and Modernization grant competition, 19 entries were selected, with 11 of those entries primarily serving rural communities. Solutions include innovative partnerships, postsecondary navigators and career coaches, new approaches to family engagement, professional development for educators, and new statewide governance structures. Learn more about the grantees below.

SO WHAT?

If you have a product or service that is positioned for the Career and Technical Education market, these awardees might be great targets for contacting this year. Even though they received the award in the last school year, these awards are for 36 months. If you click on

RedRock Reports, www.redrockreports.com jhouse@redrockreports.com

REDROCK REPORTS FUNDING NEWS

any of the schools above, you will access their application which will help you determine if your product or service will be of use to them as they continue to implement their grants.

We are awaiting the U.S. Department of Education to issue a 2024 call for applications. When that happens, if you have a client who is eligible to apply, you might contact them to get written into their grant application. Here is a useful URL for more information:
